director@seacoastfamilypromise.org

An Anniversary Milestone:

Seacoast Family Promise honored its 20th anniversary in part through the launch of an expansion project to increase the number of families with children who are experiencing homelessness that will be served in the future. The project is truly the catalyst for realizing our vision of service to families and creating healthy communities throughout the seacoast.

This milestone continues to be an opportunity to reinforce our commitment to the community and the thousands of donors and volunteers who continue to stand with us in the important fight for equity through a community based approach.

Seacoast Family Promise has served a total of 313 families. That number is comprised of 400 adults, 976 individuals, 576 children under the age of 18, and 291 of those children were under the age of five years. Babies were born here, parents reconciled, children and adults recaptured respect and love for each other. Parents and children experienced graduations, stories of success never thought possible, and the desire to continue to learn and grow towards a better life. Many families were given new-to-them vehicles allowing them to maintain employment, education and so much more.

When leaving shelter families need basic household items including furniture, food, hygiene items, school supplies, clothing, Thanksgiving meals, Christmas support, individual and/or family counseling, financial planning, budgeting and savings case management, assistance with document writing and submissions, ongoing resource referrals, and the ongoing process of renewing hope for the future to those who felt no one really cared. Seacoast Family Promise provides many of these basic human needs to families through outreach to you.

In 2023, we served 75 families in core programs. All those families were not current residents. The majority were former families who needed to continue their journey toward a bright future. Those families were made up of 243 individuals of a wide array of races, religions, genders, ages, and individualized goals for success. Of the nine families who exited the SFP shelter, seven went to stable housing. One family went to a hotel and one family is unknown to us. That is 78%, a very high rate of success for shelters.

Our partnerships have continued to flourish and as the landscape of services agencies has changed over the years, SFP has adapted and grown alongside each of them. We have been committed to respecting each service provider and have met them where the best possible scenario for our families could emerge. Our work with Family Promise national has diversified along with the changes at the national level. All toward service for families with children experiencing homelessness.

There is no crystal ball to predict the future of the organization, but one thing is for sure, the staff, board, donors, partners, and the amazing body of volunteers for SFP are all committed to the mission. We have and will continue to be a mission driven organization and maintain our focus on creating healthier communities and exceptional service to the many families who need our help.

Our Mission

The mission of Seacoast Family Promise is to empower families with children who are experiencing homelessness to achieve lasting self-sufficiency through a community-based approach.

Our Vision

We envision a community in which every family has a home, a livelihood and the foundation on which to build a better future together.

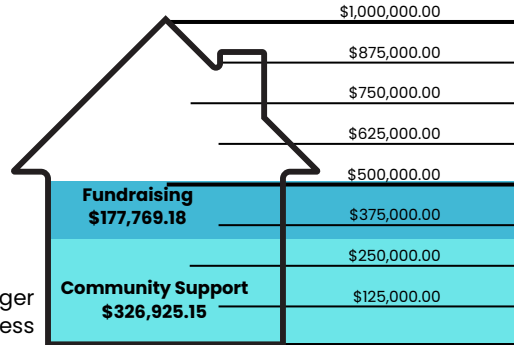

Joshua House Expansion Goal

\$1,000,000.00

\$504,694.33

Raised in 2023

Why the SFP Expansion Project?

The need for family shelter, and rooms for larger families with children experiencing homelessness provides our fellow NH residents in need with a safe, comfortable, private and warm place to rest. There are simply not enough safe family shelters available to the growing numbers of families in need of supportive services with on-going supports.

We all know that the need for sleep is important. It creates an end to the perpetual cycle of exhaustion for adults and children who are in vehicles, on the street, on a floor, or in a doubled up space that they cannot call their own. It can create the worst kind of fear and trauma, and change the direction of one's ability to function at the lowest level.

Seacoast Family Promise set its sights on designing and constructing an expansion of what is currently named "The Joshua House." The overnight shelter was purchased during the onset of COVID and has proven to be an opportunity of growth in the face of the New Hampshire's housing crisis. The decision was not taken lightly. We knew it would take resources, ingenuity, insight and even courage to make the dream a reality.

We cannot ignore the emotional impact homelessness has on the entire family. It is likely that if a family is living without basic human essentials, they are also experiencing other forms of poverty such as food or fuel poverty. The daily struggle to provide these things for their children, or having to live without these necessities, adds to feelings of desperation, worry, and often has a severe impact on a parent's mental health.

It's time to change this reality for children and families.

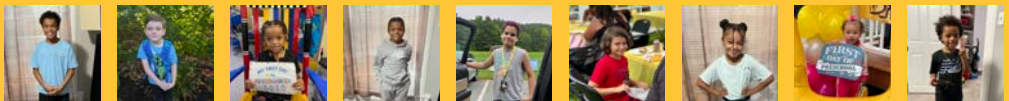

Our 2023 Core Programs

SHELTER
12 families served

AFFORDABLE HOUSING
2 families served

HOME AGAIN AFTERCARE
61 families served
